Community resilience: A framework for non-traditional field research

This talk dwells upon different research paradigms such as Hypothesis-oriented, Assessment-oriented, Action-oriented, Systems-oriented, Social adaptive (similar to V2V) frameworks. The motivation behind this talk is to discuss research that goes beyond the conventionally defined domains of science; the relevance of non-expert based knowledge to offer solutions to complex social and environmental problems, and the research that can bring significant impacts on people's behavior by small endeavors. The implications of the novel and non-traditional research framework for vulnerability to viability transitions will be discussed as a way forward for building resilient communities in a variety of resource contexts.

V2V THEMATIC WEBINAR SERIES 2023

Speaker:

Dr. Manas Kumar Mandal

Dr. Manas Kumar Mandal is a cognitive neuropsychologist serving as the distinguished visiting professor at the Indian Institute of Technology Kharagpur.
