The Transition From Vulnerability to Viability Through Illuminating Hidden Harvests

Based on a recently concluded study *Illuminating Hidden Harvests: the contributions of small-scale fisheries to sustainable development* (IHH), this webinar uncovers the contributions and impacts of small-scale fisheries through a multidisciplinary approach to data collection and analysis. It aims to contribute to a more holistic understanding of what small-scale fisheries are, their importance, why they are essential for efforts to achieve the SDGs. By using this knowledge wisely within a human rights-based approach in line with the SSF Guidelines, and by empowering small-scale fishers and fishworkers, a more inclusive, equitable, sustainable and resilient small-scale scale fisheries subsector can be achieved, supporting the transition from vulnerability to viability.

V2V THEMATIC WEBINAR SERIES 2023

Speaker:
Nicole Franz

Nicole Franz is an Equitable Livelihoods Team Leader at FAO Fisheries Division. She is a development economist with 18 years of experience in intergovernmental organizations. She holds a Master in International Cooperation and Project Design from University La Sapienza, Rome and a Master in Economic and Cultural Cooperation and Human Rights in the Mediterranean Region. Since 2011 she works for the FAO Fisheries Division where she coordinates the implementation of the Voluntary Guidelines for Securing Sustainable Small-Scale Fisheries in the Context of Food Security and Poverty Eradication (SSF Guidelines) with a focus on inclusive policy processes and stakeholder empowerment.
